

2017 年中央研究院重要研究成果

語言學研究所

整體研究概述：

中央研究院語言學研究所 106 年度之整體重點研究，就性質而言包括延續性研究、跨學科研究以及創新性研究三項。本所成所以來致力於語言學核心研究議題之基礎研究，同時亦因應 21 世紀以來科際整合之世界潮流，延伸既有之研究至相關之學門，從而積極鼓勵跨領域研究。與此同時，為求和世界其他研究機構並駕齊驅，亦努力開拓創新性研究，以爭取相關領域及議題之主導權。

整體而言，上述各項研究可概述如下：

延續性研究：臺灣漢語口語韻律亮點所透露的即時口語產製規劃及信息配置、臺灣澤敖利泰雅語音韻規律、臺灣中文對話語音之變體研究、羌語語音研究、四種臺灣南島語（卡那卡那富語、沙阿魯阿語、賽夏語、邵語與知本卑南語）之參考語法撰寫、臺灣漢語稱量詞“每”與“都”的語意研究、漢語程度副詞句法及副詞句法理論研究、臺灣原住民語言類型研究及語言復振相關議題之探討（魯凱語、邵語語言、鄒語、布農語、卑南語）。

跨學科研究：橫跨腦神經科學及語言學之漢語分類詞使用探討及語意脈絡處理歷程研究。橫跨資訊工程、資訊科學及語言學之運用韻律知識建立的韻律建模。

創新性研究：跨語言、跨方言、跨語體之語流韻律與音韻模組研究。中文對話語料庫自發性語音辨識系統之改進。

研究人員(英)：LIN, YING-CHIN

研究成果名稱(中)：傳世西夏文本《金光明最勝王經》的著錄與流向，以〈懺悔滅罪傳〉為觀察主軸

研究成果名稱(英)：The sources and collections of Tangut version Golden Light Sutra: a case study of ‘The chronicle of repenting and erasing the Crimes’

簡要記述(中)：本文為「西夏文本《金光明經》釋文研究」計畫下的副產品之一。敘述個人業餘的、追究「西夏文本〈金光明經懺悔滅罪傳〉」深宮何處藏的緣由，及過程中閱覽相關文獻的省思心得。重點如後：（一）以〈懺悔滅罪傳〉為觀察主軸，詳細呈現個人對西夏文本《金光明經》著錄與文本收藏的考察。以王靜如 1932-3 出版、釋出西夏文本《金光明最勝王經》為界，分初期與後期、敘述存世文本的流向與收藏著錄。全面檢點分藏各處文本關於款式規格、及內含分量多寡、保存良窳之記述。（二）以腳註補充正文，數說古籍文獻著錄之旅的體認——文物出土（/面世），倘若最初未經精確的紀錄，一旦輾轉處理，其文史背景資訊勢必在時空中一再稀釋流失。我們總是離重建原型歷史文化愈遠。我必須說，一方面西夏語文獻是世界文明共同的遺產，世人理應尊重其出土之原型樣貌，以便盡可能保留該樣貌所有的歷史訊息。同時，出土文物，

特別挑動人們收藏的意識，加以與生俱來好奇、求解的基因，是不是都無可避免的、一定程度要損傷文獻？拿著放大鏡考查二手資料，我難道就可以無辜免責嗎？

關鍵詞：西夏文本《金光明經》、〈懺悔滅罪傳〉、扉畫、古籍文獻、出土文物。

簡要記述(英)：This article is a by-product of my current project “Studies on the Tangut version Golden Light Sutra”. The main focus of the paper is on the Tangut version ‘The chronicle of repenting and erasing the Crimes (abbr. CREC)’ before the Golden Light Sutra to discuss the sources, and then to present some personal reflections of my researching of relevant literature.

The goal of the paper is two-fold. The first is to use ‘CREC’ as a case study to summarize my investigation of the sources and the collections of the Tangut Golden Light Sutra. Focusing on a comparison between texts released before Wang Jing-ru (1923-3) and those after this work, I review the contemporary collections and documenting work of the Tangut version Golden Light Sutra. Here, I also provide a systematic reexamination of different versions of the Golden Light Sutra stored in different institutions, as well as their size, content, and quality.

Second, this paper uses footnotes to provide some supplemental discussion of the main text: without accurate transcriptions, the sociocultural backgrounds of the unearthed texts are prone to be lost or misanalyzed, resulting misinterpretation of ancient history. Taking Tangut texts as an example, as the unearthed manuscripts are invaluable cultural treasures, it is important that we respect the original contents of the texts to obtain a better and prototypical understanding of historical messages. However, unearthed manuscripts are naturally an attraction of our curiosity of analysis and interpretation. Nevertheless, we should be more careful and aware of using these manuscripts in order to explore the Tangut language.

研究成果名稱(中)：構字知識的習得：來自 N400 上詞彙效應的證據

研究成果名稱(英)：The acquisition of orthographic knowledge: Evidence from the lexicality effects on

簡要記述(中)：本研究旨在探討閱讀能力如何影響 N400 上的詞彙效應。五十三

位二到六年級正常發展的國小學童受邀參與本研究，對中文的真字，假字，以及非自進行可讀性的判斷作業並搜集其事件誘發電位。透過群集分析發現，在300-450 毫秒的區間，低到中閱讀能力的學童，非字會在額葉的電極上引發較真字與假字更負的波形，。然而高閱讀能力的孩子，非字則是在頂葉到枕葉的電極上，較引發真字與假字更正的波形。此外，此研究透過線性混合模型探討 N400 上的詞彙效應與若干閱讀能力指標（例如中文識字量，口語詞彙量，聲韻覺識能力，工作記憶）之間的關係。結果發現非字引發的 N400 振幅，隨學童識字量越低而在額葉區域呈現越往負向走的趨勢。而詞彙效應也呈現識字量提高而在大腦後區電極呈現越正的趨勢。這些研究發現證實 N400 上的詞彙效應受到閱讀能力的影響，因此可作為神經生理指標，用以評估閱讀發展的構字知識處理效能。

簡要記述(英)：This study aimed to understand how reading ability shapes the lexicality effects on N400. Fifty-three typical developing children from the second to the sixth grades were asked to perform the pronounceability judgment task on a set of Chinese real characters (RC), pseudocharacters (PC) and non-characters (NC), as ERPs were recorded. The cluster-based permutation analysis revealed that children with low- to medium-reading ability showed greater negativity to NCs than to RCs and PCs in frontal sites from 300 to 450 ms, while children with high ability group showed a greater positivity to NCs than both RCs and PCs at central to posterior sites. Furthermore, the linear mixed model (LMM) analysis was applied to investigate the relationship between lexicality effects on N400 and reading-related behavioral assessments on a set of standardized tests (including character recognition, vocabulary size, phonological awareness, and working memory). The results found that in children with lower reading ability, the N400 elicited by NCs becomes more negative in the frontal sites. For children with higher reading ability, the N400 elicited by NCs became more positive than that elicited by RCs or PCs in the posterior sites. These findings demonstrate the developmental changes in the lexicality effects on N400 as children become more advanced readers and suggested that the lexicality effects on N400 can serve as neural markers for the evaluation of orthographic proficiency in reading development.

研究成果名稱(中)：上東谷霍爾語的發聲態對立

研究成果名稱(英)：Contrastive phonation in Upper Donggu Horpa (in Chinese)

簡要記述(中)：霍爾語群屬於漢藏語系羌語支嘉戎語組，包括數種互不通話的獨立語言。四川丹巴縣東谷上半鄉使用上東谷話，屬於一種獨特的中部霍爾語方言。上東谷話的特點是正常聲與弛聲兩種發聲態呈現音位對立，除區別詞義外，還具有體現動詞詞幹交替等形態功能。弛聲的來源尚不完全清楚，但其中一部分弛聲在詞彙與形態交替上與其他霍爾語的低調或送氣清擦音對應，應屬古霍爾語存古音韻特徵。上東谷話的弛聲有助於闡釋本語群聲調與送氣交替的起源以及界定方言間的譜系關係，是極有研究價值的語音現象。

簡要記述(英)：Horpic denotes a cluster of little-explored languages under the Rgyalrongic subgroup of Qiangic in Sino-Tibetan. Upper Donggu, spoken in Rongbrug County of Dkarmdzes Prefecture, is a previously unknown dialect of Central Horpa, a major language within Horpic. Upper Donggu makes a phonemic distinction between modal and slack phonation. This remarkable feature not only contrasts lexical meanings, but also plays a role in verb-stem and other morphological formations. Sorting out the origins of slack phonation in Upper Donggu is still a daunting task, but partial correspondences in vocabulary and inflectional morphology can be established between Upper Donggu slack syllables and syllables in other Central Horpa varieties bearing low tone or voiceless aspirated fricative onsets. This suggests that phonation in Upper Donggu is a conservative
